

# BEVELING MACHINE ACCESSORIES

## Motor Drive Attachment

- Converts manual beveling machines to electric motor drive
- Simple add-on bracket for quick, easy mounting
- Variable speed
- Operates in forward or reverse
- Permanently sealed and lubricated reduction gear box
- Specify model number, size and range, "Quick-Set" or "Compact" machine
- Available in AC or DC.

Compact: Model 200 C-E Quick-Set: Model 205 C-ES

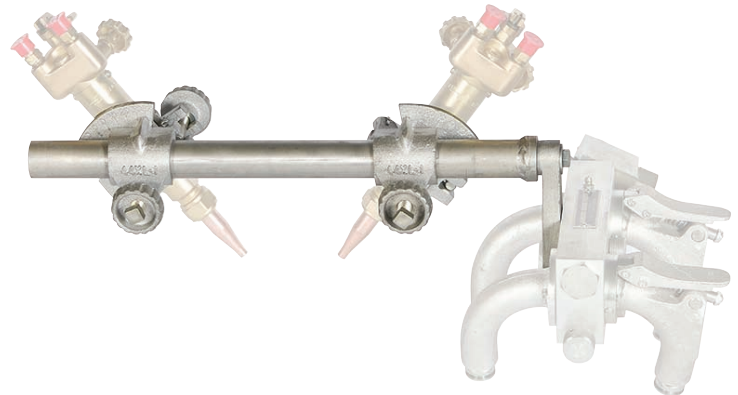

## Double Cut Torch Carrier

- Enables simultaneous carrying of two machine-type torches
- Allows independent height, lead, and degree of bevel adjustments
- Permits adjustment of spacing between torches
- Rigid, lightweight aluminum construction
- Available with "Out-of-Round" feature
- Available for either Compact or Quick-Set machines (Specify machine by type, model, size, and range).

Beveling Transmission: Model 283 D

Compact: Model 283 A Quick-Set: Model 283 B

Cutting torch shown for illustration only; torches available as optional equipment.

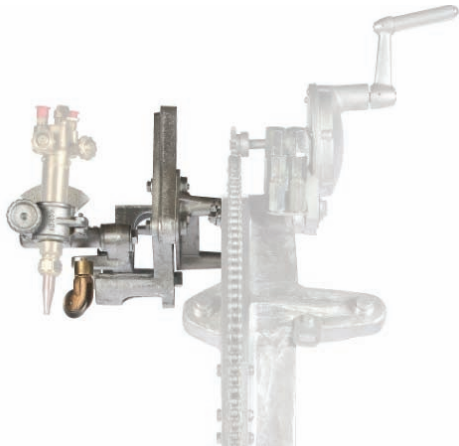

## Out-of-Round Attachment

- "Floats" torch carrier to follow pipe contour
- Maintains proper distance from pipe surface
- Compact, easily mounted and adjusted
- Accurate graduation permits setting torch for bevel angle
- Torch clamps adjust to provide lead
- Torch can be raised for igniting and flame adjustment
- Accepts any standard machine cutting torch
- Available with double bevel attachment (Specify machine by type, model, size, and range).

Compact: Model 281 A Quick-Set: Model 281 B

Cutting torch shown for illustration only; torches available as optional equipment.

# BEVELING MACHINE ACCESSORIES

## Adjustable Torch Holder Attachment

**A New Design Torch Holder Attachment fits all standard sizes of Sawyer Band Type, Compact and Quick-Set Beveling Machines, as well as the Out-of-Round Attachment.**

- Constructed of durable, light-weight aluminum
- Horizontal adjustment that allows torch rather than entire beveling machine to be moved when making final adjustments prior to cutting and beveling
- Reduces time required for pipe-end preparation
- Provides a superior cut and bevel.

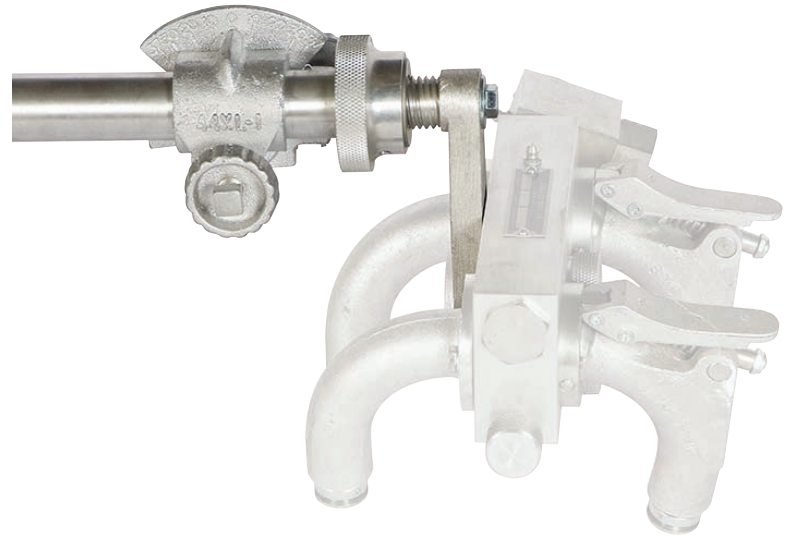

### TORCH HOLDER MODEL:

**284-A** For Out-of-Round Attachment Model 281

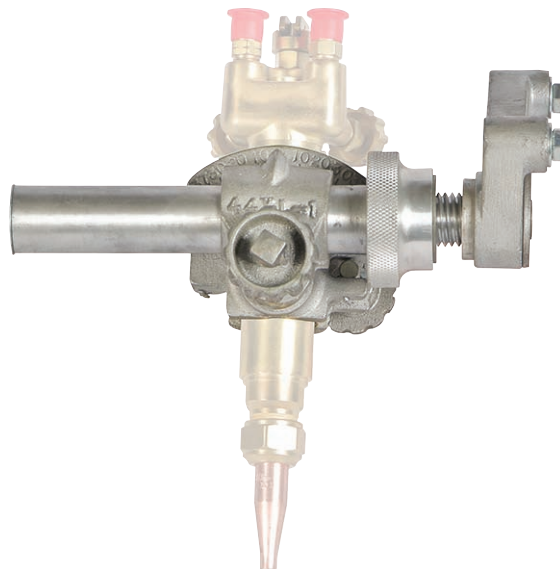

**284-B** For Compact Beveling Machines 3" - 60"  
(76.2mm - 1524mm)

**284-C** For Quick-Set Beveling Machines 1 ½" - 20"  
(38.1mm - 508mm)
